

Living with the Full Advantages of a
Supernatural Assistant

The Problem with the HGA

- The problem with the HGA is that it's been misrepresented as Enlightenment of the West
- The posturing of the ignorant – the people who think they know all about it who have never done it are fools
- Likewise, the people who have limited themselves by their need for specialization and their need to be special.

Solve et Coagula

- The reason I showed you that this entity is part of our tradition is to break you free from this trap, to reframe your experience of this entity, to open your expectations up to more than the mental prisons we have been pushed into with the expectations of the Victorian English.
- I teach the history because we are part of a living tradition that has gone back to the beginning of time. We are One tribe. One people. One continuous bolt of life energy pumping through everything all the time. One life, one light in extension.
- We have always had myths and legends of our personal invisible powerful magical friend, guard, and guide as a species.
- Every magical path does not include the assistant, but every magical path I've seen has something similar as an option that is considered normal by some branches of the belief.

Review

- This is why, in our first lesson we reviewed the history of the “Tutelary spirit” or the Magician’s Assistant. We traced it all the way back to the Fravashi of Zoroastrianism.
- We found a similar entity in Socrates’ Daimon, the Genius of Plotinus, and multiple references and rites in the Greek Magical Papyri that have been used to attain the services of this spirit.
- We found the Genius or Three-fold keeper in Agrippa, and the most famous “Holy Guardian Angel” of Abramelin in the 16th centuries.
- And we saw how Mathers, and Crowley brought the concept into our modern occult realm, where it joins the new age spirit guides who have stepped in to fill that role for the folks who never studied grimoires in their lives.
- In addition to noting that throughout the spiritual experience of humanity, this entity, or an entity with similar features has played a prominent role in the lives of some mystics, magicians, and philosophers.

The Role of the Daimon

- Yet in none of these beliefs did the Tutelary Spirit take the place of the gods. It was always the emissary, the daimon, the messenger, the angelos. It was the go-between. It had many of the powers of familiar spirits, and the effects these spirits bring are consistent across the belief systems.
- What it is : Invisible entity that protects, facilitates our creative processes, and guides us to our spiritual attainment (if we ask).
- What it's like – AI, or a very eager and intelligent intern who always tries to do what their told. If they can't they can't, they don't tell you no. They also do not moralize.

What it Does

- The things the Supernatural Assistant accomplishes in the lives of the magicians they serve can be placed in the following three categories:
 - Spiritual Attainment – It is agreed, these spirits can assist you in general instruction about magical things, and your place in the universe at large; how to ascend well after death
 - Magical Assistance – The spirit is your Angelos, your Daimon, the messenger between you and the gods who can get you in the presence of the almighty, and its many faces. It's like an AI that way, can go through all the existing and local gods and return the entities that closely resemble your desired outcome and produce the desired results.
 - Rudiments of daily life – money, food, shelter.

Specifically, it does the following:

- You will have in him a servant sufficient for whatever [tasks] you may conceive, O blessed initiate of holy magic, and this most powerful assistant, who alone is Lord of the Air, will accomplish [them] for you, and all the [other] gods will agree, for without this god nothing is [done].

Another way to look at it,
it helps you understand:

- Where you came from
- What your relationship is to the other entities (from the same place) you have to work with to DO YOUR JOB, and make sure they get paid
- How important it is to take care of yourself first to be able to take care of everyone else, the value of your manifestation

Another way to look at it

- Who you are and why you're here
- Who you are with and how that impacts you
- What you are doing to change the world according to your wishes

Reminder: It doesn't tell you shit

- It lets you learn things, or it provides knowledge that you have to do something with
- It doesn't do anything for you, it lines you up, it gives you the skills, it will tell you what to say, but you have to do it, show up, say it, perform the tasks, shine in the presence of everyone.

Notable Notes from PGM:

- In this ancient manuscript fragment, we find that there's a whole set of instructions to let the new magician touch on all the things it can do as an inspiration, and then focus on how it communicates with you so you know what to expect when you're working with it.
- When you go abroad, he will go abroad with you
- when you are destitute, he will give you money.
- He will tell you what things will happen both when and at what time of the night or day.
- And if I anyone asks you "What do I have in mind?" or "What has happened to me?" or even "What is going to happen?," question the angel, and he will tell you in silence. But you speak to the one who questions you as if from yourself.
- When you are dead, he will wrap [up] your body as befits a god, but he will take your spirit and carry it into the air with him.
- For no aerial spirit which is joined with a mighty assistant will go into Hades, for to him all things are subject.
- Whenever you wish to do something, speak his name alone into the air and say: Come! And you will see him actually standing near you. And say to him, "Perform this task," and he does it at once, and after doing it he will say to you, "What else do you want? For I am eager for heaven." If you do not have immediate orders, say to him, "Go, lord," and he will depart. In this fashion, then, the god will be seen by you alone, nor will anyone ever hear the sound of his speaking, just you yourself alone.
- And he will tell you about the illness of a man, whether will live or die, even on what day and at what hour of night.
- And he will also give you both wild herbs and the power to cure,
- and you will be worshiped as a god since you have a god as a friend.

Communicating with the spirit

How do you know you have it?

- Examples of people who have been doing it for months and should have the experience but don't yet
- No smell
- No amazing experiences
- No enlightenment

How it communicates

- Thoughts the Agrippa quote about inserting ideas like images into the eyes
- “Knowledge” in the biblical sense of the word
- Foreknowledge and Memory
- Appearing in Dreams
- Visions
- Inspired research and Inspired interest/obsessive interest in something

Honing communication

- Not an instant thing Develops over time
- It's like a wedding.
- Establishing the relationship and building it up so you have them with you all the time, so you can learn to see their constant presence and work for you

Develop more levels of intimacy around this entity

- How it helps you see things on a subtle level, “Show me the things in ways even I can understand.” The difference between doing a reading based on gematria, paths, images, numbers, sephiroth, kabala, hermetics, etc, vs. Reading with the spirit and it’s like a comic book with the main characters outlined in bright colors.
- Familiarity – use it often to get to know it
- Learning to trust “just knowing things.”
- Look for small things to build your faith, it’s a process

Getting Clear Communications

- Getting to know you, getting to know all about you – know how it will talk to you, tones, intellect, emotions, supernatural occurrences based on your chart, listen to yourself and your body and your life so far to know what kind of person you are, and what the best way to talk to you would be; listen for that.
- Methods of enhancing communication through persinger method
 - Schizophrenic episodes can be induced with that
- Listening above and slightly behind
- Pay attention to yourself to know it more, see where your thoughts arise from and know what you are so you know what you are not.

Get to Work

Testing the spirit: Setting up your World

- You have to tell it to do things
- The Works Card of thoth deck is you putting the entity to work to build your career, your wealth, and your enjoyment of life
- Set it to creating your life
- Learning things – ask it to reveal things to you. If you don't know what you need to know about, ask it what you need to know about.

How it manifests things

- Subtle miracles
- Two week cycles of manifestation

Final Thoughts

- Expectations drive lack of experiences
- Tone down enlightenment, focus on compassion, correction, connection, and conception

Advice from Abramelin

- Unlearning falsehood, making your brain more malleable
- What you should learn, study, read
 - All medicines that can improve the life and health of your neighbor
 - *All arts that stem from this because they are indispensable*
 - KBL
 - Business done for love and charity for your neighbor
 - It is good to reduce conflict, war, and hatred
 - To help depressed people.
 - You can do work that is honest, and according to the law.

Have you got a plan? Do you have a Great Work Strategy? Do you even know what you're doing here?

- What do you want the spirit to be to you?
- Do you want to have a spirit that brings you closer to god? To bring you into attunement with the all thing, of which you are a manifestation? Unity with this cosmic god, is that what you want?
- Pay attention to that. Pick the path that reflects what you want. Pursue your desired relationship

The best way to live with it on an ongoing basis, imo

- After you fix your life
- Establish a unity government with the Cosmic Deity
 - Connect to the divine, and strive to be the consciousness that runs the show
- Connect with the other Invisibles
 - Run interference to the other intelligent manifestations of the Source of all that manage the manifestations of the microcosm
- Hands on for the Important Things
 - Like the AI, an eager intelligent intern who will try anything
- What it does for you?
 - Everything you ask it to
- Morality and ethics
 - It doesn't care any more or less than you do.

Control vs. Influence: Sometimes it works.

- Let go of the need to control the experience. We are Metis, but we are Moira. It's going to be what it is, not what we expect it to be. In trying to control the experience, we can stop it because it doesn't align with what we want it to be, or what we think it "should" be.
- Expectation Management – So much of the magical experience is related directly to manifesting the personality and psyche of the magician in the material world. This spirit even more so involves the personality of the magician. Our expectations filter our results.
- Another aspect of Metis vs. Moira, it can do all the things it says on the wrapper; but they don't always work. We speak into being what must be, and we grind our gears rolling towards things that will never come into being. This spirit can help us see the Moira ahead of time, and maybe try something else instead.
- Working our wills into being with this entity becomes a blend of control and direction, mixed with passive faith and expectation, but also a touch of practical work, in the form of fire and smoke and verbalized intentions to make it more likely.
- Also, it's not about us, it's a joint effort, we work with everyone else in concert. Other magicians, gods, and whatnot have a say in what happens as well.

Continuous Improvement

- Ultimately, I think the art of magic is what we are doing to create the world, it's our Great Work. It's ours.
- The HGA is helping. We find the spirit manifests when we take steps in faith as if the spirit will succeed. What we are learning in the communication process is how to recognize the signs that things are going our way so that we look like what we're doing is magical.
- You've got to do the magic to see it work and build faith, and if it doesn't work, ask why, ask it to tell you simply.
- Ask it to reveal itself to you in the ways that you can see it.
